Curriculum Newsletter Summer 2023

This year has been crammed packed with experiences and activities that enhance our ACE curriculum and tick lots of boxes on our school charter. Here is a round up of just some of the things our children have been involved in.

We continue to have specialist teachers to help us deliver our curriculum such as music, PE and modern foreign language teachers.

We have taken part in a number of competitions such as a multi-skills, tennis, cricket, rugby and football to name but a few. Thank you to Miss Galloway for organising these.

Lots of school trips have taken place this year which cover the subjects RE, geography, science, history and art and design. We have visited museums, parks, places of workship, farms and galleries to name but a few. Amazing experiences for our children!

Lots of after school clubs have taken place this year such as gardening, arts and crafts, jigsaw, cooking, computing and well-being clubs. Lots of new skills developed!

Forest schools has continued this year. We link this to our science , art and geography units so it is relevant to the national curriculum. The children thoroughly enjoy these practical, outdoor learning days.
